

GLOBALIZATION • GROWTH • INEQUALITY / GLOCREd

Dear all,

It is a pleasure to inform you about the creation of the research network in 'Globalization, Growth and Inequality (19th-21st centuries)'. GLOCREd is a research network funded by the Spanish Ministry of Economy and Competitiveness (MINECO) composed of eight R+D projects nationally supported. Our principal aim is to promote research and knowledge transfer worldwide on Globalization, Growth, and Inequality since the nineteenth century. It aims at consolidating the academic relationships among those projects, to take advantage from the potential synergies that may arise among them and the positive externalities that may result from those relationships.

The participating groups have a long-standing and high-quality research experience in a wide range of subjects: growth, regional development, international relations, inequality, poverty, technology, energy, finance, and immigration. Likewise, GLOCREd members share a common belief in the relevance of history, economic theory, and statistics.

In the website www.glocred.es you will find more information about the research members, events and publications. You can also follow us in Twitter @GLOCREd2016, and email us at: info@glocred.es.

We hope to see you at any GLOCREd event.

Best regards,

GLOCREd team

Portales

La historia bancaria y financiera de España y de América Latina es un campo de estudio en expansión dentro de la historia económica. Este portal académico incluye working papers sobre historia bancaria, centenares de estadísticas históricas, enlaces a archivos históricos de banca y finanzas y listas de expertos con enlaces así como materiales de utilidad para la docencia:

<http://codexvirtual.com/carlosmarichal/>

Desde El Colegio de México, donde se alberga el portal, el profesor Carlos Marichal invita a todos los colegas interesados a remitir información de interés.
